ai

**LINKING YOUR CLINICAL TRIALS TO REAL-WORLD DATA**

Bringing the power of Artificial Intelligence into field of Clinical Trials.

## Who We Are!

At Medidata AI, there are hundreds of incessantly curious, multi-disciplinary experts who equip you with the vital data and tools you need to find new innovative approaches to clinical trials and to rethink the limits of what is possible – because today's challenges demand it.

**Unlocking The Potential of Artificial Intelligence, Unleashing Your Success in Clinical Trial**

## Our Services

**Clinical Trial Data-** Medidata offers insights built upon over 30,000 trials – including 8,000 active studies – and 9 million participants.

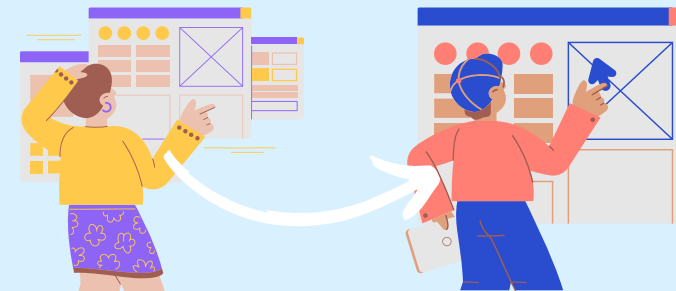

**Trial Design & Synthetic Data** - Use historical clinical trial data to improve the probability of regulatory and technical success.

**Integrated Evidence-** Connecting historical insights & real-world data to increase trial success probability.

## Who we work with?

- **Emerging and Mid-Sized Biopharma** - Gain speed, the scale for complexity, mitigate risks and improve trial outcomes.
- **Large Biopharma** - Adapt, scale, realize your next breakthrough, and get therapies to market faster.
- **MedTech** - Achieve clinical, regulatory, and commercial success during clinical trials.
- **Academic and Not-For-Profit Organizations** - Address your unique challenges with dedicated offerings and support.
